

# Cryosphere V2 Development

- improved support for ice shelves (compsets, etc.) \*
- Data icebergs; Iceberg coupling pathways \*
- improved snow-on-sea ice model (OBD)
- Improved & unified snow SW radiation scheme (OBD)
- RRM, S. Ocean / S. Atmos. enhanced meshes \*
- var. res. GM; Redi (along-isopycnal) mixing
- Improved atmos. tuning (same as WC)

\* = Cryo configs only; OBD = Off By Default
