Bryce, Sampson
Supported Projects: CDATGUI, UV-CDAT

Quarterly Report for January 1, 2016 – March 31, 2016

Quarter Accomplishments:
- Assisted in the preparation of the CDATGUI demo
- Created an interactive console for direct python manipulation of visualization and data
- Created an assortment of editors and controls to provide an easy to use interface to manipulate VCS primitives

Next Quarter's Roadmap
- Continue to implement editors and controls that provide a better user experience
- Thoroughly debug and test CDATGUI
- Prepare CDATGUI for users
- Release beta of CDATGUI

Resources Required to Achieve Goals
- None
