**Quarterly Report for January 1, 2017 – March 31, 2017**

**Quarter Accomplishments:**

- During the quarter conversion from uvcmetrics to cdp began. The following diagnostics were completed: the custom table (plot set 1), annual transport (plot set 2), zonal means (plot set 3), polar projections (plot set 7), Pacific annual cycle (plot set 11) and Taylor diagrams (plot set 14). Once they are complete integration into the acme\_diags project is needed.

**Next Quarter's Roadmap**

- Complete the conversion effort that includes plot sets 11, 12, 13 and 15.
- Begin parallelization of these diagnostics

**Resources Required to Achieve Goals**

- None.
