

**Sterling Baldwin**  
**Supported Projects: ACME**

**Quarterly Report for January 1, 2017 – March 31, 2017**

**Quarter Accomplishments:**

- Continued to meet with stakeholders in the automated post processing tool, gathering feedback on feature requests.
- Lead the automated post processing utility effort for ACME model data, which is now nearing a beta release.
- Integrated ACME web services with the new workhorse server acme1.

**Next Quarter's Roadmap**

- Release the automated workflow to beta users.
- After input from the beta and rounds of iteration, release through conda.
- Create web UI for integrating the automated workflow with the workbench.
- Create backend services to tie the workflow into the workbench.

**Resources Required to Achieve Goals**

- I have everything I need.
