

Kendra Kuivenhoven
Supported Projects: UV-CDAT (Uvcdat Usage App)

Quarterly Report for April 1, 2017 – June 30, 2017

Quarter Accomplishments

- Implemented Bootstrap UI into UV-CDAT Usage App
- Implemented 10 graphs based on collected data
 - 3 graphs represent the demographics (region and countries) of the users
 - 2 represent the dates in which UV-CDAT has been used
 - 2 graphs that represent the session start dates
 - 1 graph that represents the session lengths
 - 1 graph that represents that platforms that users are using
 - 1 graph that represents the most used actions
- In the process of implementing a survey for the users to take

Next Quarter's Roadmap

- Finishing up the survey for the users to take
- Constructing data charts for the collected survey responses
- Help Matt with documentation OR work on building charts based on ESGF collected data

Resources Required to Achieve Goals

- None
